

60th Annual CSCAA Convention, Call for Presentations

May 3-6, 2021

Submission Deadline: March 1, 2021

Submit Proposals to: Matt Zimmer

The past year has provided society the opportunity to reevaluate, reinvent, and reimagine previously held assumptions. Instead of focusing on what we couldn't do (meet in person), we imagined how a digital platform freed us from the limitations of travel, room scheduling, and even the weather. We asked, how could we use this year to offer programs, engage more coaches and make the convention more accessible than ever.

The CSCAA Digital Convention will include dozens of presentations ranging from training and stroke technique to coaching philosophy and program development. We welcome all proposal submissions related to competitive swimming and diving. We encourage submissions related to:

- stroke technique;
- exercise physiology;
- professional development; and
- diversity and inclusion.

For 2021, all presentations will be presented online. If selected, you will be asked to pre-record your presentation for broadcast during the convention.

Presentation Format

Presentation proposals should include the following information:

- Presentation Title
- Length of Presentation
- Presentation Description (why should an attendee attend in 150 words or less)
- Learning Objectives/Outcomes (Provide 2-3 bulletpoints)

Reviewing Presentations

Members of the CSCAA Board of Directors and staff will complete reviews of proposals and make recommendations. Presenters whose proposals are accepted will be notified as quickly as possible. Incomplete applications will not be reviewed. If approved, you will be notified prior to the event.
